SAFETY TREAD CURBSIDE ACCESS

Drivers Safety is a serious concern when we design our bodies. The UDV provides drivers safe passage with our ergonomic "driver friendly" design and avoids the dangers of stepping into oncoming traffic with Morgan Olson's UDV design.

Available Options:

- Translucent Roof
- Ramps
- D-ring tiesdowns
- Rear Safety Camera
- Various shelving
- conduit carriers
- Nose cone (LDX)
- Undercoating
- and more...
- Liftgates
- E-Track
- LED Cargo Lighting
- Flip-down stepwell cover
- ladder racks
- composite sidewalls
- Safety Tread cargo area
- Various Rear Door options

This cargo configuration features our durable all-aluminum floor with reinforced 3/8" plywood featuring Morgan Olson's patented infinitely adjustable sidewall shelving stiffeners. Custom cargo configurations available.

The UDV

IMPROVE YOUR DELIVERY EFFICIENCIES

**CAB to CARGO with
CARGO to CURBSIDE**

40% improvement

in delivery times over conventional delivery methods...

See the video time study at www.morganolson.com

PLUS the UDV is safer for drivers...

Imagine never having to step into traffic again...the UDV provides drivers that kind of safety by design.

Morgan Olson's legacy of building the most durable and safest Walk-In vans now comes in a smaller package...the UDV is a great fit for smaller routes wanting increased fuel efficiency.

This cargo configuration features our durable all-aluminum floor with composite interior lining and Morgan Olson's patented infinitely adjustable sidewall shelving stiffeners. Custom Cargo Configurations Available.

The UDV ADVANTAGE

a Conventional Delivery Van
