So how does this benefit upfitters?

The FOUNDATION step van was designed & built to provide upfitters with the ideal "shell" step van, improving your upfit build-times more efficiently on the most durable and dependable step van on the market, proven by our 80% market share of all step vans being produced today!

We value you, our upfitter partners, much differently from our competitors by doing what we do best... **build step van bodies** and help our upfit partners complete the build process with what they do best... **upfit the body.**

*There's only partnership collaboration - not upfit competition
when you work with Morgan Olson step vans & delivery vehicles.*
